Project Module (CHC 6096)

Weekly Report Sheet - 2023/2024 Academic Year

STUDENT NAME:	Cali
STUDENT NUMBER:	202018010124
SUPERVISOR NAME:	Maged Refat
WEEK NUMBER	Week 8
DATE:	25/11/2023
Action plan for the current week: 1.Designed and implemented the login interface layout using XML in the activity_login.xml file. The layout includes user name and password input fields and a login button. 2. Create the registration interface layout using XML in the activity_register.xml file. The layout includes new user name and password input fields and a register button.	
Challenges and issues encountered in the week: 1. There are errors and difficulties when using Kotlin to develop login logic in the corresponding Activity class. Also appeared in the registration logic. Still tried to solve the errors.	
Action plan for the next week: 1. Solve the problems encountered this week. 2. Android Studio connects SQLite database. Create database and create database table. 3. Perform error handling and feedback for users during login and registration.	
Supervisor Feedback:
